Sir/Madam:

In response to the Office communication of 9/21/2004, applicants specifically authorize the examiner to replace the photographic illustration submitted with the original Patent application with the replacement illustrations enclosed.

To overcome the objections set fourth in the Office communication regarding the authorization of myself to prosecute the immediate application for Plant Patent, we enclose a properly executed Statement under 37 CFR 3.73(b) which establishes evidence I am authorized to act on behalf of the assignee, Poulsen Roser A/S.

The applicants respectfully submit that the errors in the Specification are corrected, and that the claims comply with Section 112. The application is believed to be in condition for allowance, and notice thereof is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, consisting of a large, stylized 'K' followed by a horizontal line and a small flourish.
